**Coming
soon**

Your new
**Recycling and
waste collection**
service

**From boxes to bins
it's clean, easy, green**

Introducing **your new** recycling and waste collection service

Clean

More secure recycling bins will reduce the risk of littering both before and during collections.

Easy

No more carrying heavy, leaky boxes. Recycling will be even easier - there will be a blue lidded bin for paper and card and a red lidded bin for the rest of your recycling.

Green

More space to recycle using bins that can be collected in fewer, more energy efficient vehicles; reducing the climate impact of the service.

New bin

Paper, cardboard, corrugated cardboard and beverage cartons.

Collected fortnightly

New bin

Glass, plastic, tins cans and foil

Collected fortnightly

Household waste

Waste that cannot be recycled

Collected fortnightly

Food waste

Collected weekly

Welcome to your new service

How often will my bins be emptied?

Waste will be collected from your home every week as follows:

Will collection days stay the same?

Your collection day will remain the same as it is now.

When will the new service start?

In the next few weeks you will receive an information pack and your bins will be delivered. The pack will explain when and how to start using your new bins.

Once the new service starts, it will replace the current box collection system.

Chargeable garden waste service

The garden waste service will provide fortnightly collections over 40 weeks of the year with a suspension outside the growing season of 12 weeks (December to February).

The service will cost £40 per year per bin that is collected and there will be no limit to the number of garden bins that residents can subscribe for.

To subscribe please visit:
cheshirewestandchester.gov.uk/gardenpayment

Once you have subscribed you will receive a permit and information on when your green garden waste bin will be emptied.

Your questions answered

How will my recycling be sorted?

Your recycling is taken to Cheshire West Recycling's facility in Ellesmere Port. There, materials are mechanically sorted, separating cardboard from paper and metals from plastic and glass.

Remember to keep your recycling loose in the bin. No plastic bags please.

What will happen if there is not enough space at my property for my new bins?

Some properties such as flats and some terraced houses that do not have room for bins will continue to use their recycling boxes or be given alternative suitable containers.

Look out for your information pack for more information.

Tel: 0300 123 7026

What should I do with my old boxes?

You can keep these for your own use. Once cleaned, these boxes are great for storage or for growing plants and vegetables. You can also use them to compost at home.

If you don't want to keep your old boxes you can recycle them at your nearest recycling centre.
